

Art. no. 21 68 01			
Battery powered crimping tool „SO-6“			
	Video	Description for interchangeable dies, crimping head 180° swivelling, Head can be opened, manual return flow after perfect pressure.	 HAUPA Quality since over 50 years
Dies			

Extent of supply:

- 1 crimping tool
 - 1 charger
 - 1 battery
 - 1 strap
 - in light plastic box
 - without dies
- Pressing force in kN: 60 kN
 - Working pressure in bar: 700
 - Head can be opened yes
 - Opening/ Hub: 17 mm
 - Pressing width: slim
 - Cable lugs: standard Cu 6-300 • DIN Cu 6-300 • DIN Al 16-240
 - Connectors: Cu 6-300 • DIN Cu 6-300 • DIN Al 16-240
 - Pressing time, battery-operated in seconds: ca. 5
 - Battery charging time in minutes: 60
 - Battery type: Li-Ion, 14.4 V, 3 Ah
 - Weight in kg without batterie: 2.9
 - Weight of set in kg with batterie: 7.9

Hydraulic crimping tools are made from high quality materials and are characterised by qualitatively perfect processing of the connectors. The working heads can be turned 180° to allow the respective operation to be executed.

The crimping tools must never be used without the crimping inserts.

This could cause serious damage. The quality of the crimped connection is dependent on the choice of cable lug, the crimp inset and the correct choice of cable cross section. All the crimping inserts used in these models are semi-circular, regardless of the type of crimping. They consist of two connectable parts with identical outer dimensions, so that they can be placed either in the piston or the head. The procedure for inserting the crimping inserts is identical for assembly in both the piston and the head. The crimping inserts are compatible for all crimping tools of this type.
