

COMPRESSION HEAD

These compression heads are used to perform compressions with the suitable dies and hydraulic pump.

Application:

- Compression head

38 TN

24 TN

No	ID-code	Nominal compression force (TN)	Power stroke (mm)	Weight (Kg)
-	305.678.009	24	22	5
-	303.569.002	38	30	10,7

Suitable electrical hydraulic compression pump: BE.12.2 / GHA702

Suitable foot operated hydraulic compression pump: BP.12
