

Technical Bulletin

New solenoid valve for Salwico SW2020

We have worked very hard with our supplier Bürkert to find a new more cost effective alternative to our current selection of solenoid valves. We have tested and approved a new valve that can replace the ones we currently use; this new valve is based on the same model and will be fitted in exactly the same way.

The new solenoid valve has the following part number:

Part no	Part
5201059-00A	SOLENOID VALVE 6014-C-2,0 8W

Aftersales shall use the following part number; this part contains some extra couplings so that it is always backwards compatible:

Part no	Part
5100458-00	SOLENOID VALVE 6014-C W PLUG

The following parts will be replaced by the new valve:

Part no	Part
004651	VALVE SOLENOID 6013-A-2,0 8W
004652	VALVE SOLENOID 6014-T-2,0 8W
004654	VALVE SOLENOID 6013-A-2,0 5W
